PROFESSIONAL SUMMARY

Backend developer with strong fundamentals in Python and Django. Built multiple web applications with RESTful APIs and JWT authentication. Comfortable with SQL databases and Git-based workflows. Eager to contribute to real-world backend systems.

SKILLS

Languages: Python, SQL, JavaScript

Backend: Django, Django REST Framework

Frontend: HTML, CSS, Bootstrap

Database: SQLite, MySQL

Concepts: OOP, REST APIs, MVC/MVT Architecture

Tools: Git, GitHub, Postman, VS Code

PROJECTS

BlogSphere – Blogging Platform

Backend Web Application

🐙 GitHub

- **Tech Stack:** Django | Django REST Framework | SQLite | Git
- Built a multi-user blogging platform with post creation, editing, and commenting features.
- Designed RESTful APIs for CRUD operations on blog posts and user profiles.
- Implemented JWT-based authentication and user registration/login flows.
- Applied MVT architecture with Django ORM for clean database interactions.

LibraryMS – Library Management System

Full Stack Web Application

🐙 GitHub

- **Tech Stack:** Django | HTML | CSS | SQLite | Git
- Developed a library management system for book issuance and return tracking.
- Implemented role-based access control for admin and student users.
- Built search and filter functionality for books using Django ORM queries.

EDUCATION

Sardar Patel Institute of Technology, Mumbai

Bachelor of Engineering in Computer Science

2021 – Present

CGPA: 8.2 / 10

Delhi Public School, Surat

Higher Secondary Education (XII – CBSE)

2021

85%

CERTIFICATIONS

Python for Everybody – University of Michigan (Coursera)

Database Design and Basic SQL in PostgreSQL – University of Michigan

REST API Design – Postman Academy
