PROFESSIONAL SUMMARY

Senior Backend Engineer with 7+ years of experience architecting and scaling Django-based microservices. Led engineering teams of 6–8 developers, designed distributed task pipelines with Celery and Kafka, and deployed high-availability services on AWS with Kubernetes. Deep expertise in system design, database architecture, API security, and CI/CD pipeline automation. Passionate about engineering best practices, code quality, and mentoring junior developers.

SKILLS

Languages: Python, SQL, Go (basic), JavaScript

Backend: Django, Django REST Framework, FastAPI, Celery, Channels (WebSockets)

Database: PostgreSQL, MySQL, Redis, MongoDB, Elasticsearch

DevOps: Docker, Kubernetes, AWS (EC2/S3/RDS/Lambda), Nginx, Gunicorn, Terraform

CI/CD: GitHub Actions, Jenkins, GitLab CI

Testing: Pytest, Factory Boy, Mock, Coverage.py

Concepts: Microservices, System Design, OOP, SOLID, REST APIs, JWT, OAuth2, ORM

EXPERIENCE

Razorpay (Contract)

Senior Backend Engineer

Bengaluru, India
Mar 2021 – Present

- Architected Django microservices handling 5M+ daily API requests with 99.9% uptime SLA.
- Led migration from monolith to event-driven microservices using Celery, Redis, and Kafka.
- Designed PostgreSQL database schema with partitioning and read replicas for high write throughput.
- Built real-time notification system using Django Channels (WebSockets) serving 200k concurrent users.
- Implemented OAuth2 + JWT token rotation with Redis-backed session management.
- Mentored team of 6 junior and mid-level engineers through weekly code reviews and design sessions.

Freshworks

Backend Engineer

Chennai, India
Jun 2018 – Feb 2021

- Built and maintained Django REST APIs for CRM product used by 10,000+ enterprise customers.
- Reduced Celery task processing latency by 55% through Redis broker optimization and task batching.
- Integrated Elasticsearch for full-text search across 50M+ customer records.
- Deployed services on AWS ECS with Terraform IaC and configured Gunicorn/Nginx stack.
- Set up Jenkins CI/CD pipelines with automated Pytest runs and coverage gates.

Zoho Corporation

Junior Software Engineer

Chennai, India
Jul 2016 – May 2018

- Developed Django-based internal tools for HR and payroll data management.
- Wrote SQL stored procedures and optimized MySQL queries for reporting dashboards.

EDUCATION

IIT Madras

Bachelor of Technology in Computer Science

2012 – 2016
CGPA: 8.7 / 10

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Certified Kubernetes Application Developer (CKAD)
