PROFESSIONAL SUMMARY

Full Stack Developer and Computer Engineering student passionate about building scalable, secure, and high-impact web applications. Experienced in designing robust REST APIs using Django REST Framework, implementing JWT-based authentication and role-based access control, and developing responsive frontend interfaces. Actively exploring AI-powered systems, Generative AI, and modern LLM-driven application architectures to build intelligent, real-world solutions.

SKILLS

Languages: Python, JavaScript (ES6+), SQL, JAVA

Backend: Django, Django REST Framework, Node.js, Express.js

Frontend: React.js

Concepts: OOP, MVC/MVT Architecture, REST APIs

Tools: Git, GitHub

PROJECTS

Talent Bridge – Full Stack Job Application Platform

Full Stack Web Application (Team Project)

- **Tech Stack:** React.js | Django REST Framework | SQLite | Git
- Collaborated in a team to build a full-stack job portal for recruiters and candidates.
- Enabled job posting, application management, and tracking workflows.
- Led backend development by designing secure RESTful APIs for authentication and job listings.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) for secure access management.
- Integrated React frontend with backend APIs to build dynamic and responsive UI components.
- Maintained a clean and version-controlled codebase using Git and GitHub.

Data Insights – Student Dropout Monitoring Platform

Full Stack Web Application

- **Tech Stack:** Django | React.js | SQLite | Git
- Built a full-stack platform to collect and manage student dropout data from multiple schools.
- Enabled structured analysis and reporting of dropout trends.
- Developed secure RESTful APIs for data entry, validation, and reporting workflows.
- Implemented role-based access control to restrict school-level and administrative permissions.
- Designed responsive React components to visualize school-wise reports.
- Maintained a clean and version-controlled codebase using Git and GitHub.

EDUCATION

L. J. Institute of Engineering and Technology

Bachelor of Technology in Computer Engineering

2022 – Present

CGPA: 8.51 / 10

St. Xavier High School

Higher Secondary Education (XII – GSEB)

2021

70%

CERTIFICATIONS

Exploratory Data Analysis for Machine Learning – IBM

HTML, CSS, and JavaScript for Web Developers – Johns Hopkins University

Database Design and Basic SQL in PostgreSQL – University of Michigan
